Tree and Bench Donation Program

A tree spreads its strength and beauty across the years to become a lasting memorial while a bench provides a resting place.

The Village of Ashwaubenon Parks, Recreation and Forestry Department maintains over 283 acres of park and recreation land. As our park system grows, we need trees for shade and park character as well as benches for visitors to rest and enjoy the scenery. The Village of Ashwaubenon Parks, Recreation and Forestry Department would like to offer you an opportunity to honor someone special, to remember a loved one or to recognize a person/ organizations special achievements through our Tree and Park Bench Donation Program. This program will provide individuals, families or organizations a way to show their appreciation through enhancing the beauty and variety of our parks.

If desired, a Parks, Recreation and Forestry staff member will be happy to meet with you to discuss desired sites, trees, benches and other amenities. Trees will be planted at the appropriate time of year to ensure optimal growth (typically May and October as weather permits.) The six tree species available for this program are shown on the following page. Tree donors are also recognized on our donor plaque, which is located at the Ashwaubenon Village Hall. Benches will be installed on concrete slabs in the summer or fall. The pictures below show our bench style along with a sample plaque that would be in-set into the bench.

Please contact the Ashwaubenon Parks, Recreation and Forestry Department Office at 492-2331 to discuss donation options. Ashwaubenon Village Hall is located at 2155 Holmgren Way, Green Bay, WI 54304.

Freeman Maple

Ginkgo

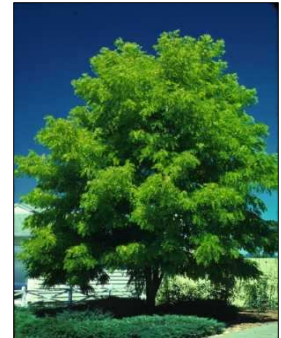

Swamp White Oak

Kentucky Coffeetree

Elm Hybrids

'Skyline' Honeylocust
