

TEMPORARY ROADWAY CLOSURE

SAND ACRES DRIVE Closed to through traffic at golf course Monday (7/26) & Tuesday (7/27)

The north half of the golf course along Sand Acres Drive is undergoing some changes as it transitions into a single-family housing development. As part of the construction associated with this development, there is a need to connect to the sanitary sewer on Sand Acres Drive to extend service into this development. PTS Contractors, the utility construction contractor, is scheduled to complete the sanitary sewer connection and crossing of Sand Acres on Monday (7/26) and Tuesday (7/27). During this time, a short section of Sand Acres Drive will be closed to through traffic (see map). The contractor will have a detour set using Fernando Drive, Packerland Drive and Grant Street as the route to navigate around the construction for the through traffic. Residential traffic located north of the utility crossing will still be able to use Sand Acres Drive to access their homes. Those who live south of the utility crossing will be able to use the detour, Sand Acres Drive from the south or Ridge Road to access their homes. The detour will be removed during the afternoon on Tuesday (7/27) at which point traffic flow will resume as normal.

Thank you in advance for your understanding and patience during this short-term closure.
